1 RISK FACTORS AND MANAGEMENT'S PERCEPTION ABOUT THE RISKS

The following matters should be considered carefully before making any investment decision with respect to the issuer or the bonds. This section contains a list of risks usually associated with the issuer and the bonds that it is issuing. The sequence in which the risks below are listed is not intended to be indicative of any order of priority or of the extent of their consequences. This list of risk factors is not meant to be a comprehensive description of all risks which may be relevant to a decision to invest in the bonds. It does not take into consideration an investor's specific knowledge and/or understanding about the risks typically associated with the issuer and the purchase and ownership of the bonds. You are advised to review the risks below, if necessary, with the assistance of your own professional advisors, prior to making any investment decisions. If any of the risks described materialize, they could have a serious effect on the issuer's financial results, and the ability of the issuer to fulfill its obligations under the bonds to be issued.

1.1 Interest Rate Risks

Interest rate risks arise due to fluctuations in market interest rate which exposes to re-price and re-investment risk for both rate sensitive assets and rate sensitive liabilities.

Management Perception

In order to manage the interest rate risks, NHFIL has adopted a clearly defined set of policies and procedures for limiting and controlling risks. The company also takes efforts to ensure that these approved policies and procedures are routinely applied and monitored. These include maintaining an interest rate risk management review process, appropriate limits on risk taking, adequate systems of risk measurement, a comprehensive interest rate risk reporting system, and effective internal controls.

1.2 Foreign Exchange Risks

Risks associated with the volatility in exchange rates.

Management Perception

Since NBFIs are not allowed to enter any FX transactions, risks associated with exchange rates fluctuations are not applicable for any NBFIs.

1.3 Non-Repayment Risks (Credit Risks)

NHFIL may face potential loss arising from the possibility of a borrower or counterparty failing to meet agreed obligations. The failure may arise due to unwillingness of the counterparty or decline in economic condition, unanticipated legal or political constraints, etc.

Md. Sarwar Kamal FCS Senior Vice President and Company Secretary National Housing Finance and Investments Limited

Sayed Ahmed, FCMA SVP & Chief Finance Officer National Housing Finance and Investments Limited Mehammad Shamsul Islam Managing Director National Housing Finance and Investments Limited Reza Uddin Ahmad Managing Director IDLC Investments Limited

Management Perception

NHFIL believes a key component of a disciplined credit culture is adherence to internal policies and procedures. Hence, comprehensive investment policies and guidelines have been established in the company to ensure quality and transparency of investment decisions at all times. The board of directors has approved the investment policy for the company where major policy guidelines, growth strategy, exposure limits and risk management strategy have been described/stated in details. Credit policies are regularly updated to cope up with the changing global and domestic economic scenarios.

1.4 Prepayment Call or Refunding Risks

The risk associated with the early unscheduled return of principal on a fixed-income security.

Management Perception

Since this is a zero-coupon bond, prepayment risk, call or refunding risk is not applicable here.

1.5 Security Risks

The risk associated with the default, authenticity or validation of the collateral used to guarantee repayment of a debt.

Management Perception

Since this is an unsecured debt, this particular risk is not applicable here.

1.6 Liquidity Risks

NHFIL might face liquidity risk due to adverse mismatch of maturities of assets & liabilities & might encounter difficulty in meeting obligation from its financial liabilities at a point of time.

Management Perception

Liquidity management is treated as a priority at NHFIL and efforts are taken to ensure that objectives for liquidity management are clear across the company. NHFIL has adequate internal controls over its liquidity risk management process that is a part of the overall system of internal control. This process monitors net funding requirements based on both current cash inflows and outflows and projected future needs. An adequate information system is maintained that produces regular independent reports and evaluation to review adherence to establish policies and procedures. NHFIL also keeps protective reserves in addition to planned reserves that are derived from regulatory requirements.

1.7 Management Risks

The risk associated with the ineffective, destructive or underperforming management, which hurts shareholders and the company of fund being managed.

Md. Sarwar Kamal FCS
Senior Vice President and
Company Secretary
National Housing Finance
and Investments Limited

Sayed Ahmed, FCMA SVP & Chief Finance Officer National Housing Finance and Investments Limited

Mohammad Shamsul Islam Managing Director National Housing Finance and Investments Limited Reza Uddin Ahmad Managing Director IDLC Investments Limited

Management Perception

NHFIL is one of the leading NBFIs in the nation with a track record of consistently exceptional performance achieved through effective leadership and corporate governance. NHFIL has a sound management that is not only efficient but also dynamic in taking relevant decisions to make the organization more effective and results-oriented. Therefore, with a strong leadership on the back, management risks are not a matter of concern or a vital risk factor for NHFIL.

1.8 Operational Risks

Operational risks may give rise to losses due to failures in people, processes, and technology. Operational risk involves the legal and compliance risks in response to the disruption of day-to day business operations. It also involves risk of losses suffered by the institutions stemming from the operational errors or mismatches in the process flows inherent in the line businesses.

Management Perception

In order to manage operational risks, management at NHFIL has established the desired standards of risk management and clear guidelines for practices that would reduce operational risks. As operational risks may arise from a wide spectrum of organizational units, management has developed operational risk mitigation practices which are inbuilt in the business process for each business unit.

1.9 Business Risks

NHFIL runs the business risk where they may be used for money laundering or financing terrorism. On the other hand, sales volume, apartment/land price, cost of construction materials, interest rate movement and overall macroeconomic conditions also play vital roles.

Management Perception

To mitigate the risks, NHFIL, while adhering to various guidelines and circulars issued by the Bangladesh Financial Intelligence Unit (BFIU), has in place a strict compliance program consisting of the following components:

- a) Internal policies, procedures and controls, which are continually updated as and when required, to identify and report instances of money laundering and terrorism financing.
- b) A dedicated structure and sub-structure within the organization for proactively managing AML and CFT compliance.
- c) Independent audit functions, including internal and external audit, to test the programs.
- d) Ongoing employee training programs.
- e) Regular review of the impact of economic condition
- f) Review and analysis of competitors' performance.

Md. Sarwar Kamal FCS Senior Vice President and Company Secretary National Housing Finance and Investments Limited Sayed Ahmed, FCMA SVP & Chief Finance Officer National Housing Finance and Investments Limited Mohammad Shamsul Islam Managing Director National Housing Finance and Investments Limited

1.10 Industry Risks

The risk NHFIL is likely to face due to virtue of the industry it is operating in.

Management Perception

NHFIL keeps constant watch on ever changing economic and business environment which sometimes leads to some industry risks as well as opportunity. The institution has always been careful in offering innovative, convenient and cost-effective financial products and services which in turn minimizes its industry risk exposure

1.11 Market & Technology Related Risks

Market risk is primarily related to fluctuations of the fair value of future cashflows of the financial instruments due to change in different market variables. Technology risk is the process of managing the risk associated with implementation of new technology. If a new technology is not compatible with business function of the company, the company may suffer in the long run. A non-compatible technology not only brings difficulty in all sorts of operations of the company but also run the risk wasting money choosing the wrong one.

Management Perception

Market risk is actively monitored by the company's Treasury division. Periodic stress testing shows that the institution is unlikely to face any major risks in liquidity, interest margins. Technology risk is mitigated by the company's robust IT department, which assesses any technologically associated risks and implements suitable counter measures.

1.12 Risks related to potential or existing Government Regulations

Excessive growth of risk weighted assets against the growth of eligible regulatory capital of NHFIL might breach the Bangladesh Bank's criteria of minimum capital requirements. Also, the Financial Institution might fail to comply with the laws, regulations or codes applicable to the financial services industry.

Management Perception

Internal control and compliance of NHFIL works to achieve effectiveness and efficiency of operations, reliable financial reporting and compliance with laws and regulations. Pillar 1 and Pillar 2 of Basel-II Accord also focused on operational risk and supervisory review respectively attaching considerable importance to internal control & compliance and on supervision & monitoring. As prescribed in the Bangladesh Bank core risk guideline on internal control & compliance, Audit Committee of NHFIL reviews the overall effectiveness of internal control system.

Sayed Ahmed, FCMA SVP & Chief Finance Officer National Housing Finance and Investments Limited Mohammad Shamsul Islam Managing Director National Housing Finance and Investments Limited Reza Uddin Ahmad Managing Director IDLC Investments Limited

1.13 Risks related to potential changes in Global or National Policies

Risks associated with any potential global issues (i.e., global financial crisis- or a massive volatility in an international currency) or a national policy change (i.e., regulatory changes made by the Bangladesh Bank or the Bangladesh Securities Exchange Commission)

Management Perception

Since this security would be issued in the local market, potential global changes are unlikely to have any impact on the security issued. Moreover, NHFIL has a robust risk management team and the capability to adapt to any global scenario that might affect the local market.

3 DETAILS PLAN OF THE UTILIZATION OF PROCEEDS

NHFIL is one of the top housing financial institutions in the private sector of the nation. The majority of its exposure is concentrated in the mortgage market. As the country is expected to see an uptrend in the overall housing market so the demand for housing finance will rise accordingly. Keeping that in mind, NHFIL has decided to look for an alternative way to raise funds by locking the interest rate for the uncertain period. So, in order to reap the opportunity, the financial institution believes that, upon completion of the full subscription, the proceeds from the issuance will be utilized to provide loans to the financial institution's housing/mortgage market segment. However, 10% of the proceeds will be utilized in government securities.

10 DESCRIPTION OF THE ISSUER: NATIONAL HOUSING FINANCE AND INVESTMENTS LIMITED

National Housing Finance and Investments Limited (NHFIL) is a public limited company incorporated on August 18, 1998, under the Companies Act 1994 in Bangladesh with a registration number:C-36097(397)/98. It obtained a license from the Bangladesh Bank under the Financial Institutions Act 1993 on December 29, 1998. NHFIL's primary objective is to provide financing for the acquisition, construction, development, and purchase of houses, plots, apartments, real estates, commercial spaces, and other related properties. Initially focused on housing finance, NHFIL expanded its operations and obtained permission from the Bangladesh Bank on June 03, 2003, to engage in lease finance operations while keeping housing finance as its core business. The company offers lease finance for various types of industrial, manufacturing, and service equipment, including vehicles, to both individuals and corporate entities.

NHFIL has its corporate office located at Concord Baksh Tower (7th floor), Plot #11-A, Road #48, Block # CWN(A), Gulshan-2, Dhaka-1212. The registered office is situated at National Plaza (7th floor), 109, Bir Uttam C.R. Datta Road (Ex-Sonargaon Road), Dhaka-1205.

Regarding housing finance, NHFIL provides loans up to 70.00% of the total purchase price of houses, plots, and apartments. The repayment terms for these loans typically range from 5 years to 20 years. The properties for which loans are disbursed are held as security under registered or equitable mortgages. Apart from housing and lease finance, NHFIL also engages in other activities such as accepting deposits, offering services to small and medium-sized enterprises (SMEs), project financing, and more.

We have fulfilled the responsibilities described in the Auditor's responsibilities for the audit of the Financial Statements section of our report, including in relation to these matters. Accordingly, our audit included the performance of procedures designed to respond to our assessment of the risks of material misstatement of the Financial Statements. The results of our audit procedures including the procedures performed to address the matter below, provide the basis of our audit opinion on the accompanying financial statements.

Loans & Advances

Risk Our response to the risk of loans & advances are We tested the design and operating effective

<u>Classification</u>
The classification of loans & advances are determined by specific Bangladesh Bank's circulars which have wide ranging effect on the financial position and performance of the FI, namely through provisioning requirements.

Furthermore, the calculation of RWA (Risk Weighted Assets) is, to some extent, dependent on the classification of loans and advances which ultimately impact the CAR (Capital Adequacy Ratio) – a significant indicators of FI's health under the BASEL - II regime.

Furthermore, the recognitions and measurement of these Loans & Advances are dictated by Bangladesh Bank's circulars namely FID circular No. 08 dated 03 August 2002. FID circular No. 03 dated May 2006, FID circular No. 05 dated 18 July 2006, FID circular No. 06 dated 20 August 2006, FID circular No. 02 dated 05 May 2007 and DFIM Circular No. 04 dated 28 June 2007, DFIM Circular No. 1, dated 24th March, 2020 and DFIM Circular Letter No. 05, dated 26th August 2020, DFIM Circular No. 04, Dated 26th July 2021, DFIM Circular No. 09, Dated 14th September 2021, DFIM Circular Letter No. 33, Dated 19th December 2021 and DFIM(P) 1052/27/2022-26, Dated 2nd January 2022 (Effective 1st January 2021 to 31st December 2021), DFIM circular no. 04, dated 26 July 2021 (Master Circular: Loan/Lease classification and provisioning) and DFIM circular no.10, dated 04 September 2022 (Master circular of Loan/lease re-scheduling/restructure), DFIM Circular 27 Dated 21 December 2022 respectively which limits implementation of respective IFRSs.

The Company's disclosures about classifications of loans & advances are included in note 8.07, 8.08 & 8.11 to the financial statements.

Provisioning & write off:

The process for estimating the provision for loans

We tested the design and operating effectiveness of key controls focusing on the following:

- The credit appraisal, loan disbursement procedures, monitoring and provisioning process;
- Identification of loss events, including early warning and default warning indicators;
- Reviewed quarterly Financial Institution Classification of Loans (CL);

Furthermore, we have assessed on test basis the loan application receipt, assessment, documentation and authorization process against Company's policy and Bangladesh Bank's requirements. Legal expert's views regarding securitization of the loans have also been considered.

As part of our process, we have reviewed the loss files, bank statements, and its provisioning requirements.

Finally assessed the appropriateness and presentation of disclosures against relevant accounting standards and Bangladesh Bank guidelines.

We tasted the design and operating effectiveness of key controls focusing on the following:

Branch Office: BSCIC Electronics Complex (Level-5), Plot No. 1/1, Road-3, Avenue-4, Section-7, Mirpur, Dhaka-1216, Phone: 9027738

Provisioning & write off:

The process for estimating the provision for loans and advances portfolio associated with credit risk is significant and complex.

For the individual analysis, these provisions consider the estimates of future business performance and the market value of collateral provided for credit transactions.

For the collective analysis, these provisions are manually processed that deals with voluminous databases, assumptions and calculations for the provision estimates of complex design implementation.

At year end the Company reported total gross loans and advances of Tk. 14,393,418,552 (2021: Tk. 13,939,457,867) and provision for loans and advances of Tk. 339,591,860 including general provision Tk. 127,442,575 & specific provision Tk. 212,149,285 (2021: Tk. 356,543,228)).

Provision measurement is primarily dependent upon key assumptions relating to probability of default, ability to repossess collateral and recovery rates.

Classified Loans & Advances are written off from the financial statements in accordance with specific Bangladesh Bank's circulars. Writing off loans & advances has drastic impact on the NPL (Non-Performing Loan). Additionally, the write-off of loans and advances are undertaken in line with Bangladesh Bank's circulars which overrides the requirements of IFRSs.

We have focused on the following significant judgments and estimates which could give rise to material misstatement or management bias:

- Completeness and timing of recognition of loss (provisioning requirements) events accordance with criteria set out in FID circular no-3:
- For individually assessed provisions, the measurement of the provision may be dependent on the valuation of collateral, estimates of exit values and the timing of cash flows;
- Complete identification and timing of loans write-offs including final provisioning adjustment and recognition of qualifying mortgaged assets under non-banking assets.

The Company's disclosures about provisioning and write-off of Loans & Advances are included in note. 14.01, 14.02 & 31 and 8.11 respectively.

We tasted the design and operating effectiveness of key controls focusing on the following:

- Tested the credit appraisal, loan disbursement procedures, monitoring and provisioning process:
- Identification of loss events, including early warning and default warning indicators;
- Reviewed quarterly Classification of Loans (CL):

Our substantive procedures in relation to the provision for loans and advances portfolio comprised the following:

- Reviewed the adequacy of the companies general and specific provisions:
- Assessed the methodologies on which the provision amounts based, recalculated the provisions and tested the completeness and accuracy of the underlying information;

assessed the appropriateness presentation of disclosures against relevant accounting standards and Bangladesh Bank guidelines.

Interest Income and Investment Income

Risk

At year end the National Housing Finance and Investments Limited reported total Interest Income BDT 1,456,285,526. This interest income includes interest on Home Mortgage Loan, Commercial Mortgage Loan, Project Mortgage Loan, Lease of Industrial Equipment, Vehicles, Delinquent Interest, Interest on Term Finance, Interest on Fixed Deposits, Interest on Short Term Deposit, Interest on Loan against FDR and Interest on Staff Loan. (Note #19)

The National Housing Finance and Investments Limited also reported Investment income TK. 66,515,423 from dividend income, interest income from Govt. treasury bond, capital gain from sales of Govt. treasury bond and gain from sales of shares. (Note #21)

There is also a risk that revenue may be overstated due to fraud through manipulation resulting from the pressure local management may feel to achieve performance targets.

Our response to the risk

We have tested the design and operating effectiveness of key controls focusing on the following:

- Verify and calculate interest income based on cut of date with the value of investment, amortization or appreciation by security value adjustment (Treasury Bond), applicable interest rate;
- Verify proper revenue recognition through cut of date for interest receivable;
- Verify the authentication of documents;
- Timing of revenue recognition.

Our substantive procedures in relation to the revenue recognition comprises the following:

- Obtaining supporting documentation for transactions recorded for Interest on Investment such as make loans and advance, Purchase date of FDR and Treasury Bond, physical verification of FDR to confirm maturity date and amount of interest, bank statement and interest receivable at the year ended day to determine whether revenue we recognized in the correct period;
- Verified the interest revenue from Treasury Bond by measuring holding period interest, adjustment by security value adjustment, Coupon rate, Yield rate, Board authorization of investment, ledger and calculation of interest;
- Critically assessing manual journals posted to revenue to identify unusual or irregular items; and
- Finally assessed the appropriateness and presentation of disclosures against relevant accounting standards.

IT systems and controls

Risk

Our audit procedures have a focus on IT system and controls due to the pervasive nature and complexity of the IT environment, the large volume of transactions processed in numerous locations daily and the reliance on automated and IT dependent manual controls.

The Company's disclosures relating to its IT systems and controls are included in note 3.13 of the financial statements.

Our response to the risk

Our firm's own IT Specialist tested the design and operating effectiveness of the Company's It access controls over the information systems that are critical to financial reporting. We tested IT general controls (logical access, changes management and aspects of IT operational controls). This included testing that requests for access to systems were appropriately reviewed and authorized. We tested the Company's periodic review of access rights. We inspected requests of changes to systems for appropriate approval and authorization. We considered the control environment relating to various interfaces, configuration and other

application layer controls identified as key to our audit.

Where deficiencies were identified, we tested compensating controls or performed alternate procedures. In addition, we understood where relevant, changes were made to the IT landscape during the audit period and tested those changes that had a significant impact on financial reporting.

Legal & Regulatory Maters

Risk

We focused on this area because the Company operates in a legal and regulatory environment that is exposed to significant litigation and similar risks arising from disputes and regulatory proceedings. Such matters are subject to many uncertainties and the outcome may be difficult to predict.

Significant Legal & Regulatory matters pertaining to the Company were:

- Compliance of rules & regulations, including submission of returns to various regulators: and
- Litigation (cases) filed on behalf of or against the Company including any provisioning requirements.

These uncertainties inherently affect the amount and timing of potential outflows with respect to the provisions which have been established and other contingent liabilities.

Overall, the legal provision represents the Company's best estimate for existing legal matters that have estimate for existing legal matters that have a probable and estimable impact on the Company's financial position.

The Company's disclosures relating to its legal & regulatory compliance are included in note 3.11 & 2.12 of the financial statements.

Current Tax:

The Company reported net current tax liability of Tk. 431,333,416 as at 31 December 2022 (2021: Tk. 443,566,929).

The Company's disclosures relating to current tax are include in note 3.07.01, 14.07, 14.07.01 & 14.08 to the financial statements.

Our response to the risk

We obtained an understanding, evaluated the design and tested the operational effectiveness of the Company's key controls over the legal provision and contingency process.

We enquired to those charged with governance to obtain their view on the status of all significant litigation and regulatory matters.

We enquired of the Company's internal legal counsel for all significant litigation and regulatory matters and inspected internal notes and reports.

We assessed the methodologies on which the provision amounts are based, recalculated the provisions, and tested the completeness and accuracy of the underlying information.

Materiality

The scope of our audit was influenced by materiality point of view. We set certain quantitative thresholds for materiality. These together with qualitative consideration, helped us to determine the scope of our audit and the nature, timing and extent of our audit procedures on the individual financial statement line items and disclosures and in evaluating the effect of misstatements, both individually and in aggregate on the financial statements as a whole.

Based on our professional judgment, we determined materiality for the financial statements as a whole as follows:

Overall materiality	Tk. 21,660,916
How we determined it	5% of average profit or loss before tax of the resent 5 years
Rational for benchmark applied	Based on the benchmarks used in the Annual Report, profit or loss before tax is a key measure used by the shareholders in assessing the performance of the group, and is a generally accepted auditing benchmark.

Performance materiality is the application of materiality at the individual account or balance level. It is set at an amount to reduce to an appropriate low level the probability that the aggregate of unconjected and undetected misstatements exceeds materiality.

On the basis of our risk assessments together with our assessment of the Company's overall control environment, our judgment was that performance materiality was 75% of our planning materiality namely tk. 16,245,686. We have set performance materiality at this percentage due to our previous experience as auditors of the Company from which we concluded that there is a lower expectation of material financial statement inaccuracies due to the Company's limited business nature and only minor audit differences resulting from our prior and current year work. Our approach is consistent with prior year.

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances.

Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.

- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events dr conditions that may cast significant doubt on the Company's ability to continue as a going concern If we conclude that a material uncertainty exists, we are required to draw attention in our auditor report to the related disclosures in the financial statements or, if such disclosures are inadequate, modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
 - Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in interna control that we identify during our audit.

Report on other Legal and Regulatory Requirements

In accordance with the Companies Act 1994, the Securities and Exchange Rules 1987, the Financial Institutions Act, 1993 and the rules and regulations issued by Bangladesh Bank, we also report that:

- We have obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purpose of our audit and made due verification thereof;

NATIONAL HOUSING FINANCE AND INVESTMENT'S LIMITED Notes to the Financial Statements For the year ended December 31, 2022

1.00 Company and its activities

1.01 Legal status and nature of the company

National Housing Finance and Investments Limited (NHFIL) was incorporated on August 18, 1998 as a public limited company under the Companies Act 1994, obtaining license from Bangladesh Bank under the Financial Institutions Act 1993 on December 29, 1998. The main objectives of the Company are to carry on the business of financing the acquisition, construction, development and purchase of houses, plots, apartments, real estates, commercial spaces, etc.

The Company has obtained permission from Bangladesh Bank on June 03, 2003 to enter into lease finance operation keeping housing finance as its core business. The Company extends lease finance for all types of industrial, manufacturing and service equipments including vehicles to individual companies and corporate houses.

The corporate office of the Company is located at Concord Baksh Tower (7th floor), Plot #11-A, Road #48, Block # CWN(A), Gulshan-2, Dhaka-1212.

The registered office of the Company is located at National Plaza (7th floor), 109, Bir Uttam C.R. Datta Road (Ex-Sonargaon Road), Dhaka -1205.

1.02 Principal Activities of NHFIL

The Company provides loan to the extent of 70.00% of the total purchase price of houses, plots and apartments under usual repayable terms varying from 5 years to 20 years. The properties for which loans are disbursed are kept under registered / equitable mortgage as security. In addition to this NHFIL also involves with other activities such as accepting deposits, SME, lease financing, project financing etc.

2.00 Basis of preparation and presentation of financial statements and significant accounting policies

2.01 Statement of Compliance

The financial statements of the Company have been prepared on a going concern basis and compliance with the Section-38 (First Schedule) of the Bank Companies Act 1991 and the subsequent amendment thereof, as instructed by Bangladesh Bank vide their DFIM Circular no-11 dated 23 December 2009, International Accounting Standard (IASs), International Financial Reporting Standards (IFRSs), The Companies Act 1994, The Securities and Exchange Ordinance 1969, The Securities and Exchange Rule 1987, The Financial Reporting Act, 2015 and other applicable laws and regulations in Bangladesh.

2.02 Basis of Accounting

The financial statements of the Company have been prepared on accrual basis of accounting, under historical cost convention except marketable securities which have been accounted for on the basis of cost or market price whichever is lower at the balance sheet date.

2.03 Disclosure of deviations from few requirements of IAS/IFRS due to mandatory compliance of Bangladesh Bank's requirements

Bangladesh Bank (the local Central Bank) is the prime regulatory body for Non-Banking Financial Institutions (NBFI) in Bangladesh. Some requirements of Bangladesh Bank's rules and regulations contradict with those of financial instruments and general provision standards of IAS and IFRS. As such the Company has departed from those contradictory requirements of IAS/IFRS in order to comply with the rules and regulations of Bangladesh Bank, which are disclosed along with impact where applicable.

2.03.01 Valuation of Investments in quoted and unquoted shares and securities

IFRS: As per requirements of IFRS 9, classification and measurement of investment in shares and securities will depend on how these are managed (the entity's business model) and their contractual cash flow characteristics. Based on these factors it would generally fall either under "at fair value through profit or loss account" or under "at fair value through other comprehensive income" where any change in the fair value (as measured in accordance with IFRS 13) at the year-end is taken to profit and loss account or other comprehensive income respectively. Bangladesh Bank: As per IFID circular No. 08 dated 03 August 2002 investments in quoted shares and unquoted shares are revalued at the year end at market price and as per book value of last audited balance sheet respectively. Provision should be made for any loss arising from diminution in value of investment. As such the Company measures and recognizes investment in quoted and unquoted shares at cost if the year-end market value (for quoted shares) and book value (for unquoted shares) are higher than the cost. In order to comply with the requirement specified in DFIM Circular No. 02 dated January 31, 2012 the company has charged the entire amount of difference in market value and cost price of marketable securities to the profit and loss account. However as per requirements of IFRS 9 investment in shares falls either under "at fair value through profit and loss account" or under "available for sale" where any change in the fair value at the year-end is taken to profit and loss account or comprehensive income respectively.

2.03.02 Provision on loans and advances/investments

IFRS: As per IFRS 9 an entity shall recognise an impairment allowance on loans and advances based on expected credit losses. At each reporting date, an entity shall measure the impairment allowance for loans and advances at an amount equal to the lifetime expected credit losses if the credit risk on these loans and advances has increased significantly since initial recognition whether assessed on an individual or collective basis considering all reasonable information, including that which is forward-looking. For those loans and advances for which the credit risk has not increased significantly since initial recognition, at each reporting date, an entity shall measure the impairment allowance at an amount equal to 12 month expected credit losses that may result from default events on such loans and advances that are possible within 12 months after reporting date.

Bangladesh Bank: As per FID circular No. 08 dated 03 August 2002, FID circular No. 03, dated 03 May 2006 and DFIM circular No. 03, dated 29 April 2013 and DFIM circular no. 04, dated 26 July 2021 (Master Circular: Loan/Lease classification and provisioning) and DFIM circular no.10, dated 04 September 2022 (Master circular of Loan/lease re-scheduling/re-structure), DFIM Circular 27 Dated 21 December 2022 and other related circulars of Bangladesh Bank a general provision at 0.25% to 5% under different categories of unclassified loans (good/standard loans) has to be maintained irrespective of objective evidence of impairment on loans and advances. However such general provision satisfy the conditions of provision as per IFRS 9. At the year end the Company has recognized an accumulated general provision of BDT 144,531,839 (out of accumulated provision of BDT 339,591,860) under liabilities.

2.03.03 Recognition of interest income in suspense

IFRS: Loans and advances to customers are generally classified at amortised cost as per IFRS 9 and interest income is recognised by using the effective interest rate method to the gross carrying amount over the term of the loan. Once a loan subsequently become credit-impaired, the entity shall apply the effective interest rate to the amortised cost of these loans and advances.

Bangladesh Bank: As per DFIM circular no. 08 dated 23 September 2012 and DFIM circular no. 04, dated July 2021, once an investment on loans and advances is termed as "Special Mention Account (SMA)", interest income from such investments are not allowed to be recognized as income, rather the respective amount needs to be created as a liability account in the balance sheet like "Interest suspense account"

2.03.04 Other comprehensive income

IFRS: As per LAS 1 Other Comprehensive Income (OCI) is a component of financial statements or the elements of OCI are to be included in a single Other Comprehensive Income statement.

Bangladesh Bank: Bangladesh Bank has issued templates for financial statements which shall strictly be followed by all banks and NBFIs. The templates of financial statements issued by Bangladesh Bank do not include Other Comprehensive Income (OCI) nor are the elements of Other Comprehensive Income allowed to be included in the Single Comprehensive Income (SCI) Statement. As such the company does not prepare the other comprehensive income statement. However the company does not have any elements of OCI to be presented.

2.03.05 Financial instruments - presentation and disclosure

IFRS 7 "Financial Instruments: Disclouser'

IAS 32 "Financial Instruments: Presentation"

IAS 32 and IFRS 7 is require specific presentation and disclouser relation to all Financial Instruments.

Treatment adopted as per Bangladesh Bank:

Bangladesh Bank has issued tampletes for financial statements vide DFIM Circular No. 11, dated 23 December 2009 which will strictly be followed by all Banks and NBFIs.

As per Bangladesh Bank Guidelines, financial instruments are categorised, recognised and measured differently from those prescribed in IFRS 9. As such some disclosure and presentation requirements of IFRS 7 and IAS 32 have not been made in the accounts.

2.03.06 Write off

Write-off describes a reduction in recognized value. It refers to recognition of the reduced or zero value of an asset. Generally it refers to an investment for which a return on the investment is now impossible or unlikely. The item's potential return is thus canceled and removed from ("written off") the Company's

Recovery against debts written off/provided for is credited to revenue. Income is recognized where amounts are either recovered and/or adjusted against securities/properties or advances there-against or are considered recoverable.

2.04 Date of Authorization

The Board of Directors has Authorized this financial statements for public issue on 17th April, 2023.

2.04.01 Components of the financial statements

The financial statements comprise of (As per DFIM Circular No. 11, Dated 23 December 2009):

- a) Balance Sheet as at 31 December 2022.
- b) Profit and Loss Account for the year ended 31 December 2022.
- c) Statement of Cash Flows for the year ended 31 December 2022.
- d) Statement of Changes in Equity for the year ended 31 December 2022.
- e) Liquidity Statement for the year ended 31 December 2022 and
- f) Notes to the Financial Statements for the year ended 31 December 2022.

2.05 Functional and Presentation Currency

The figures of the financial statements are presented in Bangladesh Currency (Taka) and have been rounded off to the nearest Taka, which is the functional currency of NHFIL.

2.06 Use of Estimates and Judgments

The preparation of financial statements in conformity with International Accounting Standards (IAS) and International Financial Reporting Standards (IFRS) requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenue and expenses. It also requires disclosures of contingent assets and liabilities at the date of the financial statements.

The most critical estimates and judgments are applied to the following:

- Provision for impairment of loans, leases and investments
- Gratuity
- Useful life of depreciable assets

The estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances, the result of which form the basis of making the judgments about carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates.

However, the estimates and underlying assumptions are reviewed on an ongoing basis and the revision is recognized in the period in which the estimates are revised.

Contingent liabilities and contingent assets

The Company does not recognize contingent liability and contingent asset but discloses the existence of contingent liability in the financial statements. A contingent liability is a probable obligation that arises from past events whose existence will be confirmed by occurrence or non-occurrence of uncertain future events not within the control of the Company or a present obligation that is not recognized because outflow of resources is not likely or obligation cannot be measured reliably.

2.07 Branch accounting

The Company has 10 (ten) branches and 3 (three) sales centre, with no overseas branch as on 31 December 2022. Accounts of the branche and sales centre are maintained at the corporate office from which these accounts are drawn up.

The current credit facilities and resources of the company provide suffecient funds to meet the present requirements of its existing business and operation.

The financial statements has been prepared on a going opcorn basis, which contemplates the realization of assets and the satisfaction of liabilities in the normal course of business.

2.10.04 Materiality and aggregation

Each material item as considered by management significant has been presented separately in financial statements. No amount has been set off unless the company has a legal right to set off the amounts and intends to settle on net basis. Income and expenses are presented on a net basis only when permitted by the relevant accounting standards.

2.10.05 Accounting for leases

Following IFRS 16: Leases, accounting for lease transactions have been recorded under finance lease method since all the risks and rewards incidental to ownership are substantially transferred to the lessee as per agreement. Accordingly the aggregate lease receivables excluding un-guaranteed residual value throughout the primary lease term are recorded as gross lease receivables while the excess of net lease receivables over the total acquisition cost constitutes the uncarned lease income.

The uncarned lease income is amortised to revenue over the primary lease term yielding a constant rate of

return over the period. Initial direct costs, if any, are charged in the year in which such costs are incurred.

2.10.06 Accouting for leases for office rent (IFRS-16)

National Housing Finance, as a lessee, recognises a right-of-use (ROU) asset representing its right to use of the underlying leased assets and corresponding lease liability representing its obligation to make lease payments for office rent agreements with effect from 01 January 2020. The ROU asset and lease liability are recognised in the financial statements considering the incremental borrowing rate.

The ROU asset is depreciated using the straight line method from the beginning to the end of useful life of the ROU asset or end of the lease term, note reference number 9.

The lease liability is initially measured at the present value of the lease payments that are adjusted for monthly payments. Lease payments are recorded to Profit and Loss account as depreciation and finance charges, note reference numbers 14.13, 20.02 & 29.

The ROU asset and lease liability will be re-measured when there is a change in future lease payments arising from a change in borrowing rate and corresponding adjustments will be recorded.

2.11 Implementation of BASEL-II

To comply with international best practices to make the FI's capital more risk sensitive as well as to make the FI industry more shock absorbent and stable, Bangladesh Bank provided regulatory capital framework "Risk Based Capital Adequacy for FI's with effect from January 01, 2012 with its subsequent supplements/revisions. 3.13 Financial risk management

NHFIL always concentrates on delivering high value to its stakeholders through appropriate trade-off between risk and return. A well structured and proactive risk management system is in place within the Company to address risks relating to credit, market, liquidity, operations and money laundering and terrorist financing. In addition to the industry best practices for assessing, identifying and measuring risks, NHFIL also considers guidelines for managing core risks of financial instructions issued by the Country's Central Bank, Bangladesh Bank, vide FID Circular No. 10 dated 18 September 2005 for management of risks and, more recently, DFIM Circular No. 03 dated 24 January 2016.

Credit Risk

The Credit Risk Management Committee (CRM) regularly meets to review the market and credit risk related to lending and recommend and implement appropriate measures to counter associated risks. The CRM critically reviews projects from risk point of view. An independent Credit Risk Management Department is in place, at NHFIL, to scrutinize projects from a risk-weighted point of view and assist the management in creating a high quality credit portfolio and maximize returns from risk assets.

Market Risk

The Asset Liability Committee (ALCO) of the Company regularly meets to assess the changes in interest rate, market conditions, carry out asset liability maturity gap analysis, re-pricing of products and thereby takes effective measures to monitor and control interest rate risk. NHFIL has also strong access to money market and credit lines at a competitive rate through good reputation, strong earnings, financial strength and credit

Liquidity Risk

Liquidity requirements are managed on a day-to-day basis by the Treasury Division which is responsible for ensuring that sufficient funds are available to meet short term obligations, even in a crisis scenario, and for maintaining a diversity of funding sources. Treasury Division maintains liquidity based on historical requirements, anticipated funding requirements from operation, current liquidity position, collections from financing, available sources of funds and risks and returns.

Operational Risk

Appropriate internal control measures are in place, at NHFIL, to address operational risks. NHFIL has also established an Operational Risk Management (ORM) to address operational risk and to frame and implement policies to encounter such risks. This department assesses operational risk across the Company as a whole and ensures that an appropriate framework exists to identify, assess and mange operational risk. The function of the ORM department is to exercise constant vigilance against erosion of Shareholders' value by identifying, assessing, measuring and managing operational risk resulting from inadequate or failed internal processes, people and systems or from preprint expenses.

Money Laundering and Terrorist Financing Risk

In NHFIL, money laundering and terrorist financing risk takes two broad dimensions:

- a) Business risk which is the risk that NIIFIL may be used for money laundering or for the financing of
- b) Regulatory risk which is the risk that NHIFII, fails to meet regulatory obligations under the Money Laundering Prevention Act, 2012 (subsequently amended in 2015) and the Anti-Terrorism Act, 2009 (subsequently amended in 2012 and 2013).

To mitigate the risks, NHFIL, while adhering to various guidelines and circulars issued by the Bangladesh Financial Intelligence Unit (BFIU), has in place a strict compliance program consisting of the following

- a) Internal policies, procedures and controls, which are continually updated as and when required, to identify and report instances of money laundering and terrorism financing.
- b) A dedicated structure and sub-structure within the organization, headed by a Central Compliance Unit (CCU), for proactively managing AML and CFT compliance.
- e) Appointment of an AML/CFT Compliance Officer, known as the Chief Anti Money Laundering Officer (CAMLCO), to lead the CCU.
- d) Independent audit functions, including internal and external audit, to test the programs.
- e) Ongoing employee training programs.

Additional risks required to be addressed under regulatory requirements

DFIM Circular No.03 of 2016, introduced the Integrated Risk Management Guidelines for Financial Institutions ("the guidelines"). These guidelines supplement, and do not replace, existing risk management guidelines.

The Integrated Risk Management Guidelines for Financial Institutions specify a number of additional risks

that financial institutions are now required to manage in a more structured manner. Key among these are:

Strategic Risk

Strategic risk has been defined as the risk of possible losses that might arise from adverse business decisions, substandard execution and failure to respond properly to changes in the business environment. The guidelines set out the respective roles of the board of the directors, senior management and business units in managing strategic risks, identify the minimum steps to be followed in the strategic risk management process and also suggest measures for strategic risk control.

NHFIL has been managing strategic risks ever since its inception. This is evident from the constantly evolving business model of the company over the years. The company has a clear strategic vision as to what it wants to be and a mission statement that states what it will do to achieve its vision. Strategic issues are discussed at a variety of forums including meetings of the Management Committee and of the N1IFIL Board. Over the past few years, a separate Strategic Planning department has been set up to assist senior management in this regard.

Compliance Risk

Compliance risk is defined as the current or prospective risk of legal sanction and/or material financial loss that an organisation may suffer as a result of its failure to comply with laws, its own regulations, code of conduct, and standards of best practice as well as from the possibility of incorrect interpretation of laws or regulations. The guidelines set out the respective roles of the board, senior management and compliance function units in managing compliance risks and also require formulation of a written compliance risk management policy.

Historically, NHFIL has always fostered a compliance oriented culture. This has been reinforced in a variety of ways, ranging from formal requirements to sign declarations of compliance with the NHFII code of conduct (which requires compliance with the law & regulations) to repeated communications from senior management stressing the need to do business in a compliant manner. In general, compliance risk management is embedded in the day to day to business processes and practices of the company. Concerned departments are kept informed of latest legal and regulatory requirements by the ICC and Corporate Affairs departments. A consideration of compliance (or any potential non-compliance) with laws and regulations is a standard part of the company's regular decision making processes. Wherever deemed necessary, appropriate legal advice is sought from qualified internal and/or external legal counsel-

Reputation Risk

Reputation risk may be defined as the risk of loss arising from damages to an organization's reputation. The guidelines set out the respective roles of the Board and senior management in managing reputation risk and also require financial institutions to implement a sound and comprehensive risk management process to identify, monitor, control and report all reputational risks.

NHFIL has already established a set of non-financial reputational risk indicators and put in place a process for monitoring these and any other matters that might give rise to potential reputational risk issues. Till date, no material reputational risk issue involving the company has been identified.

Environmental & Social Risk

As the best financial brand in promoting sustainable business practices, NHFIL have adopted Environmental & Social Risk Management System as one of its integral parts of Credit Risk Assessment to compute environmental & social risks from our financial footprints. NHFIL is one of the front runners to add "Environmental & Social Management System (ESMS)" within its framework, to minimize environmental & social risks from the organizational activities. NHFIL also have a dedicated E & S team to rollout the operations of ESMS across the organization, capacity building of the business unit as well as the credit risk management officials to strengthen the core of our in E & S Risk management.

ICT Risks

Risks arising due to system breakdown, non-availability of systems, errors and disruptions or not keeping pace with the technological changes, there was continuous monitoring of employees and users of ICT systems to ensure strict adherence to information security policies, pertaining to safeguard confidentiality of information and to secure accuracy of information. Companys IT Department conducted a comprehensive staff training program on information system security awareness to all users. NHFIL is in process to implement fully automated software having adequate safety & security measures.

Future technological needs of the Company is to be reviewed and identified as a part of the strategic plan development process for next three financial years. IT department reviewed policies in relation to, hardware and software procurement and maintenance procedures, business contingency plan on ICT, system licensing procedures etc.

15 CREDIT RATING REPORT OF THE ISSUE & ISSUER

Credit rating of the issuer: National Housing and Finance and Investments Limited.

CRISL has reaffirmed AA- rating in the long term and ST-2 rating in the short term to National Housing Finance and Investments Limited based on both relevant qualitative and quantitative information up-to date of the rating. The above rating has been assigned in consideration of fundamentals such as good capital base, good quality and sound deposit base etc. However, the above factors are constrained to some extent by declining profitability indicators, significant increase in fresh NPL, moderate asset quality, moderate performance of reschedule asset, exposure to capital market risk etc.

The long-term rating implies that entities rated in this category are adjudged to offer high quality, offer higher safety and have high credit quality. This level of rating indicates a corporate entity with a sound credit profile and without significant problems. Risks are modest and may vary slightly from time to time because of economic conditions. The short-term rating indicates high certainty of payment. Liquidity factors are strong and supported by good fundamental protection factors. Risk factors are very small.

CRISL also views the company with a stable outlook for its steady business growth and consistent fundamentals.

16 LATEST DEFAULT MATRIX AND TRANSITION STATISTICS OF CRC

BOND RATING SYMBOL

ihood of timely re	epayment of principal and payment of interest over the term to maturity of such debts.
RATING	
AAA	Indicates that the ability to repay principal and pay interest on a timely basis is extremely high.
AA	Indicates a very strong ability to repay principal and pay interest on a timely basis, with limited increment risk compared to issues rated in the highest category.
A	Indicates the ability to repay principal and pay interest is strong. These issues could be more vulnerable to adverse developments, both internal and external, than obligations with higher ratings.
BBB	This grade indicates an adequate capacity to repay principal and pay interest. More vulnerable to adverse developments, both internal and external, than obligations with higher ratings.
BB	This rating suggests that likelihood of default is considerably less than for lower-rated issues. However, there are significant uncertainties that could affect the ability to adequately service debt obligations.
В	Indicates a higher degree of uncertainty, and therefore, greater likelihood of default. Adverse developments could negatively affect repayment of principal and payment of interest on a timely basis
C	High likelihood of default, with little capacity to address further adverse changes in financial circumstances.
D	Payment in default.

Notes: Long-Term Ratings from AA to B may be modified by the addition of a plus (+) or minus (-) suffix to show relative standing within the major rating categories. Bank-guaranteed issues will carry a suffix (bg), corporate-guaranteed issues, a (cg), issues guaranteed by a financial guarantee insurer (FGI), an (fg), bond issues will carry a suffix (B) and all other supports, an (s) when such guarantees or supports give favourable effect to the assigned rating.

> Material Adverse Change: any event or circumstance (or any series of events or circumstances) occurs which the Trustee reasonably believes might have a Material Adverse Effect;

18.12 Acceleration

18.11.14

- (a) If an Event of Default as defined in respective clause in the trust deed occurs and is known to the trustee, the trustee shall give notice of the default within seven days after it occurs to Bond Holders and BSEC, and shall convene a Meeting of the Bond Holders in accordance with associated clause.
- (b) If no Meeting is held after providing notice as required by sub-rule (a) or the Meeting does not adopt any Extraordinary Resolution instructing the Trustee, the Trustee shall declare all other amounts accrued or outstanding under the Bonds be immediately due and payable, whereupon they shall become immediately due and payable and the Trustee can proceed to file Enforcement Proceedings in accordance with respective clause. If the Meeting takes place and adopt any Extraordinary Resolution instructing the Trustee, the Trustee shall follow those instructions.
- (c) The trustee shall incur no liability if it follows the Extraordinary Resolution or, if there is no Extraordinary Resolution, the procedures required by the Trust Deed, and notwithstanding anything contained in the Trust Deed, Trustee will not be bound to take any Enforcement Proceedings unless it shall have been indemnified and/or secured to its satisfaction.
- (d) If all efforts of negotiation by the Trustee fail, it can enforce the charge over the Securities in the manner provided in respective clause of the trust deed. In the event the Trustee is directed by the Bondholders by written instruction to enforce the Securities or the Trustee itself resolves to enforce the Securities pursuant to respective clause, the Trustee shall, at its discretion, dispose of any of the Securities without the intervention of the court including sale through auction or private negotiation in pursuance of the power of attorney executed in its favour. The beneficiaries of the Securities shall be the Bondholders.

18.13 Enforcement Proceedings

At any time after the Bonds have become due and repayable, the Trustee may, without further notice to Issuer, take any action, remedy or method of judicial proceedings for the enforcement of rights of Bondholders as may be available under the Governing Law from time to time (Enforcement Proceedings) against the Issuer. No Bondholder will be entitled to proceed directly against the Issuer unless

the Trustee, having become bound to do so, fails to do so within a reasonable period and such failure shall be continuing.

18.14 Application of Moneys

All moneys received by the Trustee in respect of the Bonds or amounts payable under the Trust Deed, under an Enforcement Proceeding or otherwise, will be held by the Trustee on trust to apply them (subject to the terms of the Trust Deed):

- (a) first, in payment or satisfaction of the costs, charges, expenses and liabilities incurred by, or other amounts owing to, the Trustee in relation to the preparation and execution of the Trust Deed (including remuneration of the trustee) agreed between the trustee and the Issuer but not paid by the issuer;
- (b) secondly, in or towards payment pari-passu and ratably of all amounts remaining due and unpaid in respect of the Bonds; and
- (c) thirdly, the balance (if any) in payment to the Issuer for itself.

18.15 Certificates/Reports

Any certificate or report of any expert or other person called for by or provided to the Trustee (whether or not addressed to the Trustee) in accordance with or for the purposes of the Trust Deed may be relied upon by the Trustee as sufficient evidence of the facts therein (and shall, in absence of manifest error, be conclusive and binding on all parties) notwithstanding that such certificate or report and/or engagement letter or other document entered into by the Trustee and/or the Issuer in connection therewith contains a monetary or other limit on the liability of the relevant expert or person in respect thereof.

In the event of the passing of an Extraordinary Resolution in accordance with respective clause (Meetings), a modification, waiver in accordance with respective clause and associated clause respectively the Issuer will procure that the Bondholders be notified in accordance with respective clause.
